Item	Time Allocated	Description
<b>Therapy Supports Face-to-face</b>		
Intake Session	Up to 1 hour	The Intake Session is between the Client's Representative and the therapist, either by phone or in-person. The purpose of this session is to gather information and a detailed history for the child/young person, discuss areas of concern and determine goals for therapy.
Therapy Session + Notes	1 hour	Ongoing therapy sessions between the child/young person and therapist. Sessions include 45 mins face-to-face with the therapist, followed by 15 minutes of therapist note-writing.
Goal Setting Meeting	1 hour	Client Representative meetings are scheduled after the first several therapy sessions for the therapist to discuss their initial observations and feedback. This is in conjunction with the Client's Representative's goals as discussed at the intake session. During the meeting the therapist will make recommendations regarding a therapy plan and collaborate with you to develop a therapy plan for your child/young person.

Item	Time Allocated	Description
Report Unpacking Meeting	1 hour	Following the release of a therapy report, a report unpacking meeting will be scheduled to discuss the contents and findings of the report. If you requested an assessment for your child, the report unpacking meeting will be included in your tailored assessment quote.
Care Conference	2 hours #	If your child/young person sees multiple therapists, either within Bright Door or external to Bright Door, it is beneficial for all health practitioners in your child's/young person's care team to meet to discuss their care. The purpose of this meeting is for therapists to collaborate, exchange feedback, align therapy goals and ensure therapy plans are complementary. Care conferences are only booked as requested or when clinically indicated. Billing is per Bright Door therapist involved.
Stakeholder Meeting	2 hours #	Similar to care conference as above but includes additional stakeholder involvement (e.g. Client's representative/s and the child/young person's teacher/education team).
Observational Session	2.5 hours	An observational session involves the therapist visiting your child's/young person's kindy, day care or school. This is subject to the organisation's visitor laws and regulations. Approval from the organisation and the Client's Representative is required prior to scheduling. Observational visits can be beneficial in allowing therapists to observe your child's/young person's experience and interaction within the education setting, gaining invaluable insights that can assist in therapy plan development and progression. Your therapist may recommend further resource development for your child/young person or their educators to help their therapy plan progress. This session includes 2hrs for the observation and 30min of therapist note-writing. Observational sessions are booked as requested or recommended.

Item	Time Allocated	Description
<b>Therapy Supports Non-face-to-face</b>		
File Review	Up to 1 hour	File review involves the therapist reviewing any documentation and information provided by the Client's Representative prior to starting therapy (the more information we have, the better, so make sure to send any medical or specialist correspondence, professional reports and day care, kindy or teacher feedback to admin prior to your Intake Session).
Therapy Session Preparation and Planning	30 mins	This charge will automatically occur every four sessions. Therapy planning and preparation is an essential component of providing quality intervention. It allows the therapist time to plan and prepare for a block of therapy sessions, ensuring that your child/young person receives tailored treatment specific to their individual needs and goals.
Communication (Calls & Email)	Billed in 15 min increments	Parents and guardians are welcome to communicate with their child's/young person's therapist for therapy and progress updates and to ask any questions. All communication (via telephone and email) will be billed in 15-minute increments. Invoices for communication will be emailed the following business day.
Therapy Plan	Up to 2 hours	A Therapy Plan is completed at the beginning of therapy to establish therapy goals for your child/young person. Plans are reviewed every 6-12 months, or as clinically indicated.
Resource Development	1 hour	As recommended or requested. To help achieve your child's/young person's therapy goals, the therapist may recommend additional resources to be used at home or school (E.g. routine schedules or emotion posters). Resource development can be discussed at any time, either in session or by scheduling a consultation with the therapist to discuss your home resource needs.

Item	Time Allocated	Description
Home Program Development (1 – 5 hours)	Up to 5 hours	As recommended or requested. The therapist can develop a therapeutic program to follow at home to assist in achieving therapy goals. Home programs are developed with specific therapy goal/s in mind and can include tasks or practice to complete at home.
Preparation of External Documents	2 hours	As requested. The therapist may be able to complete documents for external services or organisations (e.g. Centrelink) if needed. Please arrange a consultation with the therapist to discuss your needs and assess suitability.
Handover Meeting with File Review	3 hours	As requested. If you request for your child's/young person's care to be handed to another therapist, both therapists will require a handover meeting with file review. This is charged per therapist.
Goal Evaluation Report	2 hours	A goal evaluation report is completed by the therapist to review your child's/young person's therapy goals as clinically indicated.
NDIS Review Report *	Up to 5 hours #	As requested, prior to the NDIS participant's NDIS plan expiring or when applying for additional funding. A NDIS review report is a report structured to validate that the current funding meets the therapy needs of your child/young person, or to provide clinical evidence that further funding should be available to provide therapy to meet the child's/young person's goals.
Discharge Report *	Up to 2 hours	As requested. If therapy ceases, the therapist can prepare a discharge report to ensure the child's/young person's continuity of care. If you are changing to a different therapy service or moving and unsure of what therapy service you will be accessing, a discharge report details what the therapy goals were, what therapy was provided and the progress.

Item	Time Allocated	Description
Travel – time + kms	Up to 30 mins	Observational visits can be completed within a 30min travel radius from Toowong, Townsville and Fig Tree Pocket clinics. You will be supplied a quote for the visit, including travel time and kilometers. Travel time is billed at the therapist’s hourly rate plus \$1.00 per kilometre travelled each direction.
<b>Assessment Supports</b>		
Assessment – Tier 1	Up to 8 hours*	Bright Door provides Occupational Therapy, Speech and Language Pathology and Psychological assessments that cover a variety of needs. Assessments include an intake session, assessment sessions, a written report, and a report unpacking session to discuss the assessment results. Where clinically necessary, stakeholder consultations are also included. Assessments are scheduled and booked depending on therapist availability. Please see our website or contact our admin team for more information.
Assessment – Tier 2	Up to 10 hours*	
Assessment – Tier 3	Up to 12 hours*	
Assessment – Tier 4	Up to 16 hours*	

# Per therapist

All Supports are billed in 15-minute increments. You will not be billed for time not utilized for your child’s care.

\* Reports may take up to 4 weeks to complete.

Reports are only invoiced once completed and are not released until the invoice has been paid in full.
